### AIM

Aim of this research project was to examine the changes in the energy fields and chakras so as to prove the efficacy of the Amezcua bio disc.

## Pie graph for 20

cases:

### CONCLUSIONS

- It seems very clear that the Amezcua bio disc has a profound positive effect on individuals at energy level
- In addition to the analysis part of the data, during experiments changes witnessed in the biofield were unusually strong and positive.
- Maximum changes were seen in bio field.
- After use of Amezcua bio disc subtle vibrations like pink were seen predominantly in the field. It had also increased the vibrancy of chakras reduced the stress pattern seen on face in form of pooled red energy.
- In some cases predominance of green and violet was seen to increase.
- Positive effects are also seen over lung fields, solar and brow chakra in some of the cases.
- From this research we can conclude that Amezcua bio disc is a very effective mode of energizing /balancing bio field also the chakras/ energy centres.
