Celebrating Nature

The beauty of Nature is evident everywhere. If we only choose to look, we will find inspiration from the simplest things in the forests and the seas. A tree branch laden with bright berries, colourful corals from the deep blue ocean, the changing seasons – all these and more have proven to be the inspiration for thousands of artists and designers over the millennia.

Enamoured by natural beauty she has seen during her travel around the world, Datin Sri Umayal Eswaran put together a collection that would reflect nature in all its splendour.

Inspired by the rustic beauty of tree branches and the intricate lacey designs of corals from the sea, the pieces in the Umayal Collection are artfully fashioned from silver and ornamented with delicate gemstones. Each piece is handmade with utmost care by skilled craftsmen, ensuring its uniqueness and quality. Created to emulate nature at its best, the Umayal Collection is one that will appeal to those with a passion for nature.

As an executive member of RYTHM Foundation, Datin Sri Umayal adheres to the fundamental philosophy of the Foundation – RYTHM, an acronym derived from the precept 'Raise Yourself To Help Mankind', based on the idea of being the change you want to see in the world. A portion of the earnings from the sale of the Umayal Collection will be donated to RYTHM Foundation for further use in its charity work across the globe, giving help to those who need it most.

SPECIFICATIONS

The Umayal Collection is made from Fine silver 925/- with anti-tarnish plating and precious stones. Each piece has a unique shape and pristine finishing

Peacock Baroque Set

The elegance of the Peacock Baroque Set pays tribute to the sovereign beauty of this stunningly luxuriant king of birds. The peacock is the epitome of nature's true beauty with its richly coloured feathers of captivating design.

Floret Empress Set

With an essence of gold hinting through a tapestry of rose, yellow and black-gold colours, the Floret Empress Set marries tradition with new-age fashion. Its intricately woven design is reminiscent of a protective haven, the silk cocoon, shown through both the pendant and matching earrings.
