

Brille

SMILE WITH CONFIDENCE.

Let Brille Premium, a line of comprehensive oral care products formulated by UK dentists, brighten your smile and leave your mouth clean and refreshed throughout the day.

Exclusively available from **QNET**

SILVER PARTICLE WHITENING TOOTHPASTE

- Contains 99.9% PURE SILVER PARTICLES to help leave your mouth feeling amazingly clean and refreshed.
- Uses special micro-polishers to help brighten teeth and restore them to their natural whiteness.
- Contains Aloe Vera, Green Tea Extract and Vitamin E.
- Formulated by UK dentists.

REMINERALISING WHITENING TOOTHPASTE

Our Remineralising Whitening Toothpaste contains hydroxyapatite which is one of the building blocks of tooth enamel – it uses a multi-whitening effect to help restore teeth to their natural whiteness and also helps to prevent tooth sensitivity. It also contains fluoride and xylitol to help prevent tooth decay and comes packaged in a unique pump action dispenser.

NANO-SILVER WHITENING TOOTHBRUSH

Advanced nano-silver particles have been added to the bristles of Brille Nano-Silver Whitening Toothbrush to help provide an anti-bacterial effect and inhibit bacterial growth on your toothbrush.

The special dual-layered whitening bristles help to remove stains, restore teeth to their natural whiteness and clean hard to reach places.

SONIC WHITENING TOOTHBRUSH

Brille Sonic Whitening Toothbrush with advanced sonic technology provides a powerful dynamic cleaning action that helps to remove plaque and promote healthy teeth and gums. The sonic cleaning action also helps to whiten teeth by removing surface stains and is clinically proven to be more effective at removing plaque than a normal toothbrush.

TEETH WHITENING STRIPS

Brille Professional Whitening Strips are mouldable plastic strips containing the optimum amount of whitening gel to simply, safely, and effectively, whiten your teeth. Brille Professional Whitening Strips come with two selections – one for sensitive teeth (which contains 4% hydrogen peroxide) and a stronger premium whitening strip (which contains 6% hydrogen peroxide) for more effective whitening.
