

KENTA

NATURAL FOOD FORMULA INSPIRED BY OKINAWA DIET

NATURAL ANTI-AGEING AGENT WITH PROVEN RESULTS

LONGEVITY AND NUTRITION IN A DRINK

LifeCode's Kenta is a delicious natural-formula beverage inspired by the Okinawa Diet, famed for being extremely nutritious and for bringing longevity.

The island of Okinawa in Japan is known as the 'Village of Long Life'; people there are recorded to have among the longest life expectancy in the world. Because of their healthy lifestyle and special diet, Okinawans are also noted for having significantly lower mortality rates caused by cardiovascular diseases and cancer.

So what is the secret of the 'Village of Long Life'? The secret lies in the traditional diet of Okinawa islanders, which consists of green and yellow vegetables, soy and other legumes, with sweet potato as their staple food instead of rice.

KEY BENEFITS

1 Natural anti-ageing agent that helps make you look 10 years younger

Kenta is the fountain of youth because it boosts your body's natural anti-ageing potential. Kenta keeps your bones strong, lowers your blood pressure, improves health of vital organs – especially the heart, keeping your blood vessels healthy, and lowers your risk of blood vessels hardening.

2 Enhances sexual function and sexual desire

Kenta is a unique formula that stimulates your body to produce HGH (Human Growth Hormone) naturally, thereby helping to enhance your sexual function and performance. Unlike Hormone Replacement Therapy, which has side effects such as increased risk of cancer and heart attack, etc, Kenta utilises natural food ingredients to enhance your HGH production without any side effects.

3 Better skin and muscle tone

HGH is important for preserving youthful vigour, looks and strength. Kenta improves skin firmness and effectively balances skin tone. Furthermore, it improves muscle size and tone, promotes better vitality, better stamina, increased flexibility, and quicker muscle recovery.
