

CIMIER
SWISS WATCHES

Since 1924, the CIMIER team has always lived for their brand and worked with enthusiasm, drive and passion for their clients who recognise the value of a CIMIER watch and appreciate its aesthetics as well as its reliable inner workings. CIMIER watches reflect the elemental values of the Swiss watchmaking tradition - sophisticated, stylish, sporty, high-quality and an outstanding price-performance ratio. Combining class and elegance with passion and determination, the designs of this brand new set of CIMIER watches are inspired by QNET's being the Official Direct Selling Partner of Manchester City.

Exclusively available from **QNET**

QNETCITY

Play Absolutely

Suitably made for the true 'Citizens', this exceptionally designed automatic watch requires no batteries and instead uses wrist movement to power itself, letting you fuel your time with pure energy.

Take pride in the scratchproof sapphire crystal with anti-reflective coating, latched onto a black genuine leather strap representing the colours of Manchester City. With a water resistance of up to 100 metres, this is the perfect timepiece for the gentleman who wants to stay classy and elegant while enjoying the world's favourite sport.

Movement	: Swiss Automatic – ETA 2824
Assembly	: Swiss Made
Limited Edition	: 1,880 pcs

WATCH CARE

For maximum performance, regularly wipe your watch with a clean, soft cloth. Stains, water spots and dirt that have accumulated on the case, crystal or band may cause premature wear.

CARE FOR THE CRYSTAL SURFACE

- A watch may have a scratch-resistant sapphire crystal face, but that doesn't mean you should toss your watch on top of the dresser or into a drawer at the end of the day. It is better to store or wrap it in a soft cloth before placing it down.
- Replace broken or scratched crystals immediately. Even a hairline crack can let dust or moisture into the mechanism, affecting the accuracy.

CARE FOR METAL BRACELETS

- If you participate in activities that cause you to sweat excessively, you may want to consider getting a watch with a metal bracelet or rubber strap, rather than a leather strap.
- Since the metal bracelet is worn next to the skin, it collects dust and perspiration, which becomes soiled if not cleaned regularly. This is particularly true of the inner mesh of the bracelet.
- When soil and rust are present in a bracelet, they are dissolved by perspiration and can cause staining of the cuffs and, in some instances, irritation of the skin.
- Wipe dirt and perspiration off with a soft, dry, lint-free cloth. If the watch is water resistant, you can occasionally clean the bracelet with a soft brush and warm soapy water. Dry the bracelet completely.
- A toothpick can also be used to clean any dirt that has built up in the bracelet or casing of the watch.
