Bel & Belle Facial Moisturising Cream

Your facial skin is one of the most sensitive parts of your body. Moisturisers act as barriers that protect your skin from the intrusion of any external and harmful agents such as cosmetic residues or pollution. Moisturisers can also help normalise your cell turnovers, which happens when your skin is dry, preventing your skin from becoming flaky.

Choose Bel & Belle Facial Moisturising Cream because

- It is formulated with Aloe Vera extract that helps soften wrinkles and remove damaged cells.
- The green tea extract in this moisturising cream has an antioxidant property that helps reduce signs of ageing on the face.
- Its non-oily texture penetrates the skin rapidly leaving the skin feeling fresh and soft allowing you to look radiant and glowing throughout the day.
